IDEA 0766
Copy 3 of 3

10 JUL 1962

MEMORANDUM FOR: Chief, Intelligence Staff, OSA

SUBJECT: Handling of Current Intelligence
Data for Operating Detachments

1. Request you prepare a [] message containing all 25X1A
pertinent intelligence data required by the operating detachment in
the execution of a Headquarters-directed mission. Such data would
include target briefing material, order of battle, lines of demarcation,
etc., as appropriate for a particular mission.

2. The present method of handling this type of information
requires a duplication of effort in handling and typing, and is
unnecessary. Since [] cable traffic is an operational 25X1A
channel subject message can be coordinated and released at proper
times by the Operations Project Duty Officer.

3. Please include the preparation of this message on your
mission support checklist for future IDEALIST operational activities.

4. A copy of this message will be provided. For your immediate
reference a pink copy may be retained.
